

I'm Tyler and I am a fun loving dedicated person who has grown up in both the art and sports world. Both worlds have taught me important skills such as teamwork, problem solving, self motivation, and patience, and to have confidence in myself and my work. Because of those lessons I believe I can take on any project or challenge and be successful. The fun loving side of me is where I get most of my inspiration from, whether I'm out being active or taking photos, it always comes back to me being creative.
